ABOUT THIS RESOURCE

Aim

These colourful posters are designed to introduce young learners to different colours in a fun, visually engaging, and realistic way. Featuring real-life photos of everyday objects, the posters help children recognize, name, and use colours in meaningful contexts. They also support language development, visual discrimination, and early concept understanding, making them an ideal resource for classrooms, therapy sessions, or at-home learning.

What concepts and skills are taught?

- Colour recognition and naming
- Visual discrimination of similarities and differences
- Vocabulary development
- Classifying and sorting by colour
- Connecting concepts to the real world (e.g., a banana is yellow)
